4.2. Minimum differential general rates

In accordance with section 70 of the Regulation, Council has fixed a minimum amount to be levied for each differential general rates category.

This minimum amount takes into account the minimum cost per annum of providing common services which are provided to every ratepayer as well as basic general administration costs and provides equity by reference to the value or quality of land between the various categories.

4.3. Limitation of increase in differential general rates

In accordance with section 108 of the Regulation, Council has determined to apply a limitation of increase in differential general rate on all rateable land in categories 1, 1ga, 10, 10aa to 10ad, 10ba to 10bi, 10ca to 10ci and 10ga and land identified in the table at section 15.19 in the Resolution.

The limitation of increase in differential general rates aims to reduce the financial impact on ratepayers where the land valuation increases significantly, exceeding the average increase in the valuation of other ratepayers.

4.4. Separate rates and charges - Environmental management and compliance

A separate rate will be levied on all rateable land for environmental management and compliance purposes. These purposes and the amount of the levy are outlined in the Resolution.

Council considers it appropriate that the separate rate be made and levied on the average rateable value of all rateable land in accordance with the differential general rating category. A minimum amount is payable. Revenue raised from this levy will only be used to fund all or part of the costs associated with the purposes outlined in the Resolution.

Council considers that it is more appropriate to raise funds by a separate rate rather than from general funds to ensure the community is aware of Council's commitment to protecting and enhancing the natural and built environments and to meeting Council's obligations under the Environmental Protection Act 1994.

4.5. Separate rates and charges - Bushland Preservation Levy - Environment Function

A separate rate will be levied on all rateable land for bushland preservation purposes, except for rateable land which is subject to a Voluntary Conservation Agreement or a Land for Wildlife Agreement with Council. The benefits and the amount of the levy are outlined in the Resolution.

Council considers it appropriate that the separate rate be made and levied on the average rateable value of all rateable land in accordance with the differential general rating category. A minimum amount is payable. Revenue raised from this charge will only be used to fund all or part of the costs associated with the purposes outlined in the Resolution which include the acquisition, protection and maintenance of bushland.

Council considers that it is more appropriate to raise funds by a separate rate rather than from general funds to ensure the community is aware of Council's commitment to acquiring and protecting natural bushland areas in the city.

4.6. Special rates and charges for identified benefitted areas

Special rates and charges will be made and levied for the provision of a service facility or activity for the Queen Street Mall, Chinatown and Valley Malls, Suburban Centre Improvement Projects and Living Village Developments. Utility Charges are made and levied for the provision of waste management services, including recycling on all improved premises.

Utility Charges will be set to recover the costs associated with the provision of waste management and recycling solutions that are competitive, environmentally responsible and reflect a commitment to community safety and industry best practice.

The amount of the Utility Charges is based on:

- (a) the type of service (i.e. mobile bin, bulk bin, or other waste collection and disposal service) and/or
